

gamma blister **NEW**

- The only food used by Tropical Marine Centre at its three UK fish-holding facilities.
- Highest quality ingredients.
- Rapidly packed, sealed & frozen.
- Gamma irradiated. This completely eliminates any risk of introducing harmful parasites or bacteria into your aquarium, and also means that the food is completely safe to store in your freezer.
- 100% natural products and the wide variety available ensures that individual species of fish receive a balanced, varied and interesting diet.
- Blister packs are designed to dispense one measured cube of food at a time, leaving the rest of the product sealed within their separate blisters. A quick and convenient way of feeding fish.
- Colour-coded feeding suitability guide makes it easy to find the right food for your fish!
