

Complete feed for marine fish juveniles

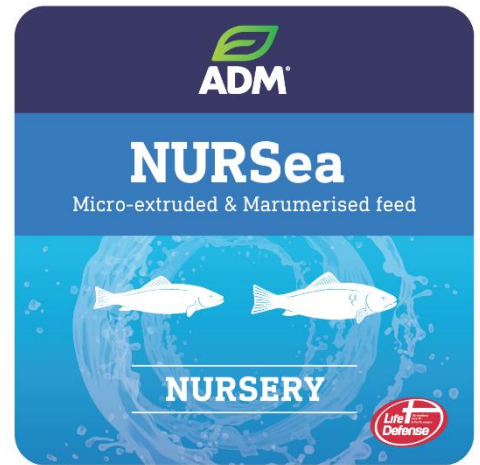

FEATURES

NURSea is a nursery feed with dedicated formula for marine fish cultured in intensive conditions where nutrition and water quality are crucial parameters to ensure a healthy growth of juveniles.

NURSea is produced by an innovative technology of micro-cold extrusion and guarantee a high water stability. It is also a functional feed that will protect the animals during stress conditions (Life Defense concept).

BENEFITS

- Micro-cold extrusion.
- Preventing denaturation of essential nutrients.
- Homogeneous particle size facilitating the consumption by the fish.
- Lower leaching preserving the water quality in the nursery tanks.
- High stability in water.
- High palatability.

COMPOSITION

Nutrient	Unit	Value	Nutrient	Unit	Value
Moisture	%	8.0	Calcium	%	2.2
Crude Protein	%	55.0	Phosphorous	%	1.6
Crude Fat	%	13.0	Vitamin A	IU/kg	25000
Ash	%	11.0	Vitamin C	ppm	925
Crude Fiber	%	1.5	Vitamin E	ppm	270

INGREDIENTS

Fish meal, krill meal, peas, fish oil, wheat, shrimp hydrolysate.

INSTRUCTIONS OF USE

Product based on natural ingredients. Variation in color is possible but does not affect the performance.

Feed 4-6% of the fish biomass per day. Divide into frequent times per day.

**Adjust feed amounts according to local conditions. For more information, contact your local ADM Aquaculture expert.*

PACKAGING

Buckets of 5.0 kg; Bags of 20.0 kg.

STORAGE CONDITIONS

Store in a dry and cool place (best at 4 °C, max. 20 °C).

Shelf life: 2 year.
