

Supplementary feed for shrimp broodstock

FEATURES

Royal Spawn S is a high quality supplementary maturation feed for shrimp breeders. This maturation diet is a supplement to fresh feeds normally used in shrimp maturation such as squid, artemia biomass or polychaetas. Royal Spawn S improves the condition of females and speeds up their recovery after each spawn.

BENEFITS

- Preventing denaturation of essential nutrients.
- Homogeneous particle size facilitating apprehension by shrimp.
- Low leaching preserving water quality in the tanks.
- Improving nauplii quality and pigmentation.
- Cold-extruded product.
